

MEDICAL SKILLS CHECKLIST

Please complete the below skill sheet to the best of your ability. A comment section is available at the end if you wish to elaborate in any areas.
Please rate according to the level of experience:

1. No contact with equipment or this patient situation. No knowledge of this procedure.
2. Understand procedure and patient situation but never performed task.
3. Have performed this task infrequently and would need supervision.
4. Have performed this task frequently and can perform independently.

Please indicate if whether your experience is with Pediatric Care, or Adult Care, or both.
5= Pediatrics 6= Adults

SKILLS	1	2	3	4	COMMENTS	5P	6A
Cardiovascular							
Cardiac Monitoring Equipment:							
Lead Placement Electrodes							
Management of Bedside Monitor							
Management of Central Station							
Cardioversion:							
Preparation							
Test Synchronization							
Interpretation of Monitor							
Cardiac Pacing Catheter							
Knowledge of Insertion Procedure							
Temporary Transvenous							
Transthoracic							
External Pacemaker							
Doppler							
EKG							
Ability to Run 12 Lead							
Identify changes on 12 Lead							
Heart Sounds: Recognition and causes							
Streptokinase Procedure							
Indication							
Management of Patient							
TPN Procedure							
Indication							
Management of Patient							
CVP							
Assist with insertion							
Management							
Discontinuation							
Mast Suit / Contraindications							
Indications for use							
Management							
Angiography							
Pericardiocentesis							
Indications							
Knowledge of procedure							
Cardiopulmonary Resuscitation							
Use of Ambu Bag							
Perform CPR							
Perform Defibrillation							
Administration of Emergency Meds							
Pulmonary							
Airway Management							
WASO – Tracheal Sutining							

SKILLS	1	2	3	4	COMMENTS	5P	6A
Assist with Intubation / Extubation							
O2 Administration							
Breath Sounds: Recognition and Cause							
Arterial Blood Gases							
Interpretation of Values							
Knowledge of Indicated Therapy							
Bronchoscopy							
Knowledge and Effects of Respiratory Therapy							
Medihalers							
Tracheostomy							
Chest Tubes							
Thorocentesis							
Genito-Urinary							
Insertion of Catheters							
Care of Suprapubic Catheters							
Assist with Vaginal Exams							
Assist with Rape Exams							
Knowledge of Procedure							
Precipitous Delivery							
Spontaneous AB							
Care of Newborn							
Assist with D&C							
Integumentary							
Wound assessment and dressings							
Wound swab cultures							
Wound Irrigation							
Gastro-Intestinal							
Assess Abdomen							
Nasogastric Tube / Gastric Lavage Tube							
Insertion / Removal							
Instilling Medications							
Irrigation							
Gastrostomy / Jejunostomy Tube							
Musculoskeletal							
Application and Assistance							
Ace Wraps							
Posterior Splint							
Jones Wrap							
Knowledge of:							
Ice bag application							
Proper fitting & Instruction in crutch walking							
Steinman Pin insertion							
Assist with cast application							
Fiberglass							
Plaster							
Removal of cast							
Neurological							
Neurological Assessment							
Assist with Lumbar Puncture							
ICP							
CVA							
Open and Closed Head Injuries							
Spinal Cord Injuries							

SKILLS	1	2	3	4	COMMENTS	5P	6A
Medications							
Cardiovascular							
ACLS drugs IV							
Hyperstat IV							
Nitroprusside IV							
NTG							
Digoxin							
Lasix							
Inderal							
Procardia							
Morphine							
Verapamil							
Integumentary							
Local Anesthetics							
Tetanus Prophylactics							
Ointments							
GI							
Charcoal							
Antiemetic							
Ipecac							
Antacids							
Insulin							
Glucogen							
Anti-Spasmodic							
Pulmonary							
Epinephrine							
Aminophylline							
Terbutaline							
Steroids							
Musculoskeletal / Neuro							
Robaxin							
Valium							
Dilantine							
Phenobarbital							
Mannitol							
Invasive Procedures							
Assist with cutdown							
Venepuncture							
Management of IV pump							
Auto Transfusion procedure							
Hickman, Groshong & Portacath, PICC Line							
Hemodialysis Shunt or Graft							
PCA Pump							
General Emergency Skills							
Protocol for Venomous bites							
Protocol for Psycho/Social Intervention							
Rape Exam							
Child Abuse Exam							
Crisis Intervention							
Visual – Eyes							
Eye Irrigations							
Ear Irrigations							
Visual Acuity							

SKILLS	1	2	3	4	COMMENTS	5P	6A
Remove Contact Lens							
Knowledge of Triage Prosedure							

How many Years in the ER? _____ Level I _____ Level II _____ Level III _____

Signature: _____ Date: _____

Name: _____
